The SWING1000 is an audio system that is designed for all venues were music is an essential part of the atmosphere. With 1200 Watts music power it can be used for music playback from ambiance level to party level. This set can be used in areas surrounding the dance floor, music bars, cafés, pubs, sport bars,….

The heart of this system is the revolutionary CHAMP-ONE. This amplifier is convectionally cooled. It has no fan, which means : no unwanted noise, no cleaning procedures, no maintenance and no wake up calls in the middle of the night ! CHAMP-ONE guarantees 24/7 worry free operation.

The system is completed by four full-range MASK8F speakers - especially for use without a subwoofer. They offer HiFi quality at a level that is close to a studio monitor. The MASK8F speaker can be painted into any RAL color (REF : PAINTCAB8), so these speakers will always match the interior style.

Finally, your search for a custom designed audio system for use in bars and pubs can come to an end. SWING1000 offers an amazing sound and is designed for 24/7 reliability in the most demanding environments !

Consists of:

4 x MASK8F top speakers
1 x CHAMP-ONE amplifier
